

DIPTRONICS

The technical drawing illustrates the physical dimensions of the component's surface-mount package. The top view shows a rectangular footprint with overall dimensions of 6.50 ± 0.10 mm by $2\phi 1.3 \pm 0.05$ mm. Key features include a central pad with a diameter of $\phi 3.00$ mm, a mounting hole with a diameter of $\phi 1.00$ mm, and a lead width of 1.80 ± 0.10 mm. The side view indicates a maximum height of 0.50 mm and a lead thickness of 0.25 mm. The end view shows a total length of 7.90 ± 0.50 mm, a mounting hole diameter of $\phi 6.0$ mm, and a distance of 3.50 mm from the edge to the center of the mounting hole.
