## Specifications of CCTV LENS

| Parameter of Lens      |                                      |        |
|------------------------|--------------------------------------|--------|
| Product Name           | Megapixel HD<br>Varifocal Board Lens |        |
| Model No.              | FH05550BM-MP                         |        |
| Focal length(mm)       | 5.5-50mm                             |        |
| Aperture(D/f' )        | 1/1.6                                |        |
| Mount                  | Ø14                                  |        |
| Format(inch)           | 1/3"                                 |        |
| Horizontal Field Angle | 76-8.8°                              |        |
| Back Focal Length      | 6.43-8.65mm                          |        |
| Flange Back            | 4.5mm                                |        |
| Dimension(mm)          | φ32.5×56.9                           |        |
| Weight (g)             | 65                                   |        |
| M.O.D(m)               | 0.4                                  |        |
| Operation              | Focus                                | Manual |
|                        | Zoom                                 | -      |
|                        | Iris                                 | Fixed  |
