

## 614F/2 DC axial fan

Very compact DC fan, 15 mm flat with outstanding air performance values at very little noise. DC fan with electronically commutated external rotor motor and fully integrated commutation electronics.

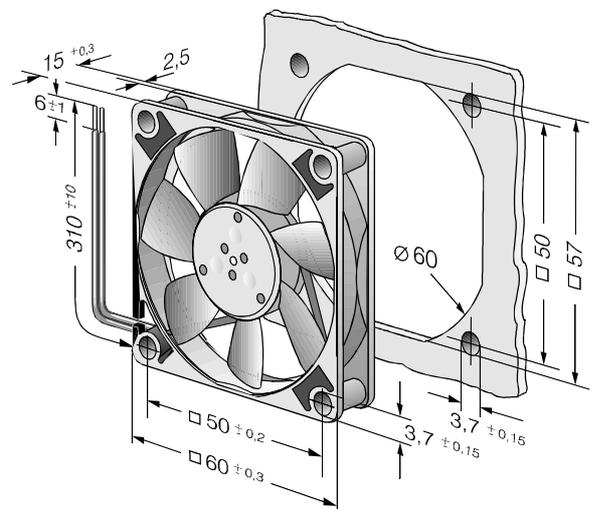

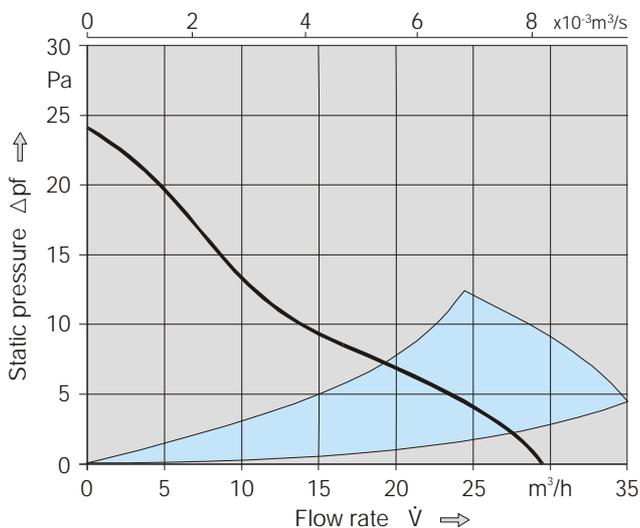

### Features

- Electronic protection against reverse polarity, locking and overloading.
- Air exhaust over struts. Rotational direction CCW looking at rotor.
- Very low EMI.
- Electrical connection via 3 leads AWG 28, TR 64. Stripped and tinned ends.
- Speed-proportional rectangular pulse output for external speed monitoring of fan motor.
