

Data sheet Product SMP 410 C 15

Thermal interface material / Fixing material / Mounting material>Fixing material for mechanical components>Vibration dampers and solder terminals

- universal applicable round metal, antivibration buffers for solving vibration problems
- other lengths and hardness range on request

Field of applications:

- reduction of dynamic component stress
- vibration insulation for disc drives and motors
- impact reducing on sensitive instruments
- reduction of the noise level
- prevention of vibration resonance phenomena (amplified effect)
- compensation of mechanical imbalances

Features

version:	vibration damper
material:	rubber-metal connection
rubber:	natural rubber (NR according to ISO)
hardness:	~ 50 Shore A
elongation and tensile strength:	very good
colour:	black
metal parts:	steel tin-plated
temperature range:	-40°C... +80°C (short term +90°C)

Technical Drawing

H:	15 mm
type of thread:	M4
Ø D:	10 mm
L:	4 mm
